C. C. MORSE & CO.,

WHOLESALE SEED GROWERS

Santa Clara, Cal.,.....190

The following list of seed represents the varieties we are especially prepared to grow the coming season of 1905. The prices quoted are for special contract orders and are submitted for your exclusive consideration.

Since in California, winter is our best planting season, it is important that we get your contract order early so that we can plant intelligently. This applies especially to annuals. All biennial crops are limited to our supply of roots and bulbs and we will book orders against the growing crops only so long as in our judgment the prospects are favorable for our filling them, counting on an average crop only. In the event of short crops, all orders will be filled pro rata. We will charge cost for bags used in packing.

TERMS: F. O. B. Santa Clara. Net, June 1st following delivery, or 5 per cent. discount for cash within 30 days from date of shipment.

C. C. MORSE & Co. give no warranty, expressed or implied, as to description, purity, productiveness or any other matter of any seeds they send out and they will not be in any way responsible for the crop. If the purchaser does not accept the goods on these terms, they are at once to be returned.

SWEET PEAS.

Owing to the small quantities now ordered of a large number of the older varieties of Sweet Peas, we have found it necessary to discontinue growing them, and the following varieties represent our present growing list.

For special new varieties which do not appear here, it will be necessary to supply stock seed and the product of same will be returned at price quoted at end of list.

Our "Field Notes on Sweet Peas," describes the complete list quite fully and a copy of same will be mailed on request.
